•
•
•

State of the BRAC Program

- ◆ Introduction
- ◆ Accomplishments
- ◆ Immediate Challenges
- ◆ Long-term Issues
- ◆ Conclusions

•
•
•

Accomplishments

◆ Environmental Program Performance

- Information Collection/Reporting
- Environmental Decisions

•
•
•

Accomplishments (Continued)

◆ Major Property Transactions

- Cameron Station
- Kvaerner (PNSY)
- Early Transfers

•
•
•

Immediate Challenges

◆ Challenges to BCTs

- Continued Use of BCT Approach
- Coordination With Re-use Authorities
- Eco-risk

•
•
•

Immediate Challenges (Continued)

◆ Program Challenges

- Budget Constraints and Remedy Selection
- Regionalization/Downsizing
- Site Close Out

•
•
•

Long Term Issues

- ◆ **Linkage of remedy selection/institutional controls and operating properly and successfully determination**
- ◆ **Range assessment, response, and long-term care**
- ◆ **Superfund reauthorization and role of states**

•
•
•

Conclusion

- ◆ **BRAC has Been Major Success**
- ◆ **Continued Innovation**
- ◆ **Continued Obligations**
